

## FINE FOCUS RETROFIT FOR B&H "500" SERIES

This device was developed for users who project large images or desire a better, more precise focus control on their 16mm projectors. It replaces the existing focus knob assembly. This device is standard equipment on the model 567 projector and optional on all other models in the "500" series. It does NOT fit the 1500 or 2500 series 16mm film projectors.

Order one of part number 015179 KNOB & LEVER ASSEMBLY, FOCUS (complete assembly). It consists of these individual component parts:

- 1a 012980 Knob Assembly, Lock
- 1b 09847 Knob Assembly, Focus
- 1c 015178 Lever Assembly, Focus
